Washington, D.C. 20590

RE: TIGER Discretionary Grant Application (FY 2017)
Spokane International Airport Multimodal Transportation Infrastructure Safety Improvement Project
Subject: Federal Wage Rate Certification

Dear Secretary Chao,

The Spokane International Airport certifies that it will comply with the requirements of subchapter IV of Chapter 31 of Title 40, United States Code [Federal wage rate requirements], as required by the FY 2017 Appropriations Act. All prime and subcontractors working on projects funded in whole or in part by TIGER Discretionary Grant funding shall be required to meet federal wage requirements.

The Spokane International Airport uses contract specifications requiring prime contractor and all subcontractors to pay their laborers employed under Federally-funded contracts a wage rate not less than the highest wage applicable to their work classifications, as specified by the current and applicable Federal Wage Determination. If no Federal work classification appears to comply, the prime contractor shall make a written request to obtain the applicable work classifications and wage rates prior to start of construction. When the same classification appears in both the Federal and State Wage Determinations, the preemption noted at CFR 965.101 shall apply. The prime contractor is responsible for ensuring subcontractor compliance with Davis Bacon and related act requirements.

Sincerely,

Matt Breen
Director, Planning and Engineering Department
Spokane International Airport
