4Q	A select few portions of our proposal would be better presented on 11x17 sheets of paper in the landscape orientation. Can an exception be made whereas it would be acceptable to utilize a certain number of 11x17 pages? We feel that the quality of the message being presented would have a greater impact on the readers and reviewers. Our goal is not to enlarge the page count per se but feel the larger paper would be beneficial to demonstrating our approach sections in a clearer and more concise fashion.
4A	No.
