To: Ground Transportation Operators
From: Chance Abbey, Manager – Parking & Ground Transportation
Date: December 15, 2023
Subject: Changes to Ground Transportation Operating Fee

The Airport has established a criterion that incorporates the Airport's direct costs, indirect costs, and a load equivalency factor to establish the Ground Transportation Operating Fee, based on Gross Vehicle Weight (GVW).

Ground Transportation Classification	Vehicle Impact Trip Fee
Tier I (0 – 8,000 lb. GVW)	\$2.50
Tier II (8,001 – 20,000 lb. GVW)	\$3.00
Tier III (20,001 – 30,000 lb. GVW)	\$7.00

As part of our forward-looking strategy, we are excited to announce the planned implementation of the new Vehicle Impact Trip Fee, is slated to commence in the second quarter of 2024.

Thank you once again for your valuable contributions, and please feel free to reach out if you need any further information via email at cabbey@spokaneairports.net.
